- This survey has been orientated to the Ordnance Survey National Grid (OSGB36) via GNSS/GLONASS RTK observations. A true OS coordinate has been established at Station D. The scale factor of this survey is 1.0.
- All levels are orthometric heights related to the OSGB36 datum, computed using the Leica Smart Net RTK Network.
- Surveyed boundary features are not necessarily legal boundaries.
- Dimensions should not be scaled. All dimensions should be checked on site before any fabrication / construction.
- Copyright of all data produced by Trigon Survey & Investigation Ltd shall remain with Trigon Survey & Investigation Ltd unless otherwise specifically agreed.
- Information provided should not be altered or modified in any way. It should not be used for any purpose other than for which it was intended and should not be issued to other parties without prior agreement of Trigon Survey & Investigation Ltd.
